

Elongated 3-D flexion zones stretch where creases occur in the finger and palm for better feel on the club and enhanced comfort.

Seams on the side of the finger are repositioned to a neutral zone of motion to provide flexibility and give an instant broken-in feel.

Breathable, top-grade Cabretta leather, Lycra positioned between the fingers.

Extremely durable to last round after round.

White cabretta leather with black lycra

Welcome OEM logo on velcro part
